RESEARCH INTERESTS

- **Interactive AI Agents:** Dialogue systems, human-agent interaction, and user simulation
- **Multimodal AI:** Speech-language understanding and multimodal interaction
- **Interpretability and AI Safety:** Internal representations, activation steering, and model robustness

EDUCATION

M.S. in Computer Science and Information Engineering
National Taiwan University (NTU), Taipei, Taiwan *Jan 2026 – Jun 2027 (expected)*
Advisor: Prof. Hsin-Hsi Chen. GPA: 4.22/4.30

B.S. in Computer Science and Information Engineering
National Taiwan University (NTU), Taipei, Taiwan *Aug 2021 – Jun 2025*

PUBLICATIONS

1. **Jing Jin**, An-Zi Yen, Hen-Hsen Huang, Sheng-Lun Wei, Hsin-Hsi Chen
Decodable but Underutilized: Emotional Speech in Multi-Party Dialogue Understanding
Under Review, 2026.

2. **Jing Jin**, An-Zi Yen, Hen-Hsen Huang, Hsin-Hsi Chen
Know Your Role, Take Your Turn: Socially Grounded Multi-Party Dialogue Agents
Under Review, 2026.

3. **Jing Jin**, Ming-Te Hong, Min-Yao Chang, Shao-Shun Tsao, Bo-Kai Huang, Yun-Nung Chen
A Survey of Mixed-Initiative Interaction and Under-Specified Intent Resolution in Agents
Under Review, 2026.

4. **Jing Jin**[*], Yen-Shan Chen[*], Peng-Ting Kuo, Chao-Wei Huang, Yun-Nung Chen
LLMs are Biased Evaluators But Not Biased for Fact-Centric Retrieval Augmented Generation
Findings of ACL, 2025.

5. **Jing Jin**[*], Szu-Ju Chen[*], Sheng-Lun Wei, Chien-Hung Chen, Hsin-Hsi Chen
Retrieving the Right Law: Enhancing Legal Search with Style Optimization
SIGIR, 2025 (Short Paper).

6. **Jing Jin**, Jui-Chien Tsou, Chih-Ho Chen, Po-Jen Ko, Tzu-Hung Huang
Instruction-Tuned LLMs for Multilingual Medical ASR and Privacy Entity Extraction
IW-DMRN 2025, Springer CCIS, 2026.

[*]Equal contribution.

RESEARCH EXPERIENCE

Natural Language Processing Lab, NTU *Sep 2024 – Present*
Graduate Researcher (formerly Undergraduate Researcher) | Advisor: Hsin-Hsi Chen

- **Led research on socially grounded multi-party dialogue agents**, designing prompting and classification strategies to investigate how social relationships and addressing styles affect addressee recognition and dialogue understanding.
- **Investigated emotional cues in spoken multi-party dialogue**, comparing textual emotion annotations, original speech, and synthetic speech across downstream dialogue understanding tasks.
- Collaborated with a Ph.D. student to develop an **LLM-based legal retrieval framework** integrating query rewriting, style optimization, and fine-tuning, resulting in a **SIGIR 2025 short paper**.

RESEARCH EXPERIENCE (CONTINUED)

Machine Intelligence and Understanding Lab, NTU *Sep 2023 – Jan 2026*
Research Assistant (formerly Undergraduate Researcher) | Advisor: Yun-Nung Chen

- **Designed experiments and implemented the reranking stage** to investigate LLM evaluation bias and self-preference in retrieval-augmented generation (RAG), contributing to a **co-first-author paper at Findings of ACL 2025**.

TALKS

EDR for the Model's "Mind": Investigating Prompt Injection and Jailbreaks with NLA *Oct 2026*
SINCON 2026, Singapore

- Presented **Natural Language Autoencoders (NLA)** for interpreting LLM internal representations and analyzing **prompt injection and jailbreaks**.

WORK EXPERIENCE

CyCraft Technology Corporation *Oct 2025 – Present*
Data Science Intern

- Conducted research on **LLM hallucination, hidden representations, and activation steering**, investigating model reliability, interpretability, and safety.
- Represented CyCraft as a **speaker at SINCON 2026**, presenting applications of **Natural Language Autoencoders (NLA)** to analyzing prompt injection, jailbreaks, and model internal representations.

Institute of Political Science, Academia Sinica *Aug 2024 – Aug 2025*
Research Assistant

- Developed **Python-based preprocessing workflows** to clean and structure large-scale OCR-derived historical and policy documents.
- Applied **LLMs and text similarity methods** to legislative bill summarization and document comparison.

AWARDS & ACTIVITIES

ACL 2025 – Student Volunteer *Jul 2025*
Association for Computational Linguistics
Assisted in conference operations, session management, and attendee support.

AI CUP – Honorable Mention *Jun 2025*
Ministry of Education, Taiwan
Fine-tuned Whisper for ASR and an LLM for sensitive medical data extraction; extended the work into a paper submission.

1st Place – MOE Proposal Contest *Aug 2024*
Youth Development Administration
Developed an integrated job platform addressing youth employment issues.

TEACHING EXPERIENCE

Information Retrieval and Information Extraction *Fall 2026*
Teaching Assistant, National Taiwan University

- **Designed the final project**, developing a retrieval task and evaluation benchmark for student-built retrieval systems.
- **Coordinated course operations**, including classroom arrangements, exam proctoring, assignment grading, and administrative logistics.

Fundamentals of Artificial Intelligence *Spring 2025*
Teaching Assistant, National Taiwan University

- **Designed a game-playing AI project** based on *6 nimmt!* and developed **baseline agents** for evaluating student strategies.
